# WATERCOLOR

## *Weathered, Textured & Rusted*

(Wood, Rocks & Metal)

### **2-day Workshop: *Weathered, Textured & Rusted***

Play watercolor for all it's worth! Create images of rusted gears, car parts, locks, weathered wood, rocks or rocky shores? Fun subjects to paint in watercolor with layers and various texture-creating techniques. Explore the native characteristics of numerous pigments and what they can do to lend realism or impressions to wood, rocks, and metal surfaces. Crop your subjects close up – almost abstracts – and other explorations. Materials list upon registration.
